Idriss Kone

514-431-1062 • Montreal, QC • **idriss.kone@icloud.com** • **Portfolio** • **LinkedIn** • **Github**

Hard-working Web Developer with a focus on developing mobile-friendly websites and web applications using HTML, CSS and JavaScript. Looking for a role where I can work on front end web app development to provide a useful and reliable user experience.

SKILLS & LANGUAGES

Skills: HTML | CSS | JavaScript | Sass | TailwindCSS | Bootstrap | ReactJS | NextJS | MaterialUI | Styled Components | Git

Languages: English (*native*) | French (*fluent*)

PROJECT EXPERIENCE

Pokedex
Visit Page

A web application that allows users to look up detailed information about their favorite Pokemon. This project was built using ReactJS and MaterialUI. Built this project in order to help quickly search information about Pokemon when needed

What I've learned:
- Getting more familiar with using a React UI framework such as MaterialUI
- Being able to implement infinite scrolling using a React library
- Utilizing React Hooks for the first time

Designo
Visit Page

A multi-page website about a fictional design company built using React and Sass. This was a great project to sharpen my Sass skills and organize my stylesheets better. This project also allowed me to become more comfortable with using SVGs in my projects

What I've learned:
- Building a multi page React website using Sass from scratch
- Getting more familiar with the use of SVGs.

Movie Search
Visit Page

A website to look up any movie you want and get a short plot description along with a trailer of the movie

What I've learned:
- Getting more familiar with using ReactJS.
- Fetching data from an API using Axios
- Utilizing React Hooks for the first time

EDUCATION

Bachelor of Computer Science *(Incomplete)* | Concordia University   2016 - 2019
